While reviewing this information, please keep the following in mind:

- All graduation rates are based on up to six years of attendance for bachelor's programs, which equates to 150% of the normal completion time.
- We have elected not to report transfer-out rates because our College's mission does not include providing substantial preparation for students to enroll in another eligible institution without completing or graduating.
- These charts do not identify the reasons why our students withdrew; therefore, students who withdrew for personal or medical reasons are included.
- Graduation rates do not include students who left school to serve in the U.S. Armed Forces, on official church missions, or with a foreign aid service of the federal government, or students who died or were totally and permanently disabled.

The following exhibit represents graduation rates for our general student body and students participating on varsity athletic teams.
